

- Open Internet Explorer or Firefox and go to the course web page (http://acunix.wheatonma.edu/jsklensk/Calc1E_Spring08/calc1E.html)
- Scroll down the page, right-click on the link *Maple Essentials Tutorial*, and select *Save Target As....* Save the file to the desktop.
- Locate the file *Maple Essentials.zip* on your desktop and double-click on it to open it.
- Double-click on the file *section1.mws*. Maple should start automatically and download this worksheet. (Take a look at the Maple icon, so you'll be able to open it other days when you need it.)
- You should work through the sections in the following order:

1, 3, 5, 2, 4, 6, Practice Problems

Whatever you don't finish in class today, be sure to finish on your own later.
